

CLOSING THE KNOWLEDGE GAP

The largest gap that still remains between Aboriginal and Torres Strait Islander peoples and non-Indigenous Australians is the cultural **Knowledge Gap**.

Australia cannot effectively close the gap and deliver sustainable and lasting change to improve Indigenous lives without all Australians developing cultural competence at both a professional and personal level.

The CCCA Aboriginal and Torres Strait Islander cultural competence course provides individuals and organisations with a **Practical Act of Reconciliation**, designed to deliver real and lasting change.

"As an Aboriginal person I found the content to be informative and thought provoking. It has provided me with foundation knowledge about the history of Aboriginal and Torres Strait Islander peoples in Australia. It was a very worthwhile course and I would recommend others to complete it. It

"An absolutely fantastic course. There are parts that made me cry and laugh reliving some of my own experiences as an Aboriginal person. There was so much I didn't know and it has certainly opened my eyes to many truths. It has pointed out to me that I only knew about the wider Adelaide community and not the full state of South Australia communities" - **SA**

I feel that everyone in community services should undertake this course, as it would greatly help achieving more appropriate delivery services to our families" - **SA**

"I really did not have a desire to learn more about Aboriginal and Torres Strait Islander people and their culture and beliefs - where as now I am willing to be more open-minded and not just do what I have to do because of my employment. I now have more empathy, a lot of myths were certainly cleared up for me" - **NSW**

This course was a real eye-opener and has resulted in me taking much of the information home to discuss the issues with my wife and children" - **VIC**
